

AMERICANS WILL NOT STOP

Occupied Moulin-les-Pas and
Took Control of Loges
Wood

DESPITE TENACIOUS
GERMAN DEFENSE

Victory on the Verdun Front
Considerably Expanded
on Wednesday

With the American Army Northwest of Verdun, Wednesday, Oct. 16 (by the Associated Press).—After having captured Grand Pre, the Americans to-day advanced their lines to the eastward and occupied Moulin-les-Pas. They surged forward until they had taken control of Loges wood, one and a half miles north of Cheveres.

The American advance was everywhere desperately contested, especially during the crossing of the river Aire, but the Americans pressed.

A part of to-day's work consisted in the consolidation of positions on hill 182, just north of St. Juvin. The American artillery was active all day and the German guns responded freely. Infantry fighting was limited to the left flank of this sector.

Additional evidence has been received from prisoners that the Germans are putting in the best divisions they have in the effort to check the American advance.

With the American Army Northwest of Verdun, Oct. 16.—(By the Associated Press).—In its successful advance north of the Argonne forest to-day the American first army reached Champagnolle, one mile north of St. Juvin. A little farther east, toward the Meuse, they gained possession of the Cot de Châtillon.

East of the Meuse the Americans moved forward in the Bois de La Grande Montagne, the summit of which they now hold.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief
from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.—Adv.

PREPARING GERMANS FOR TURKEY'S COLLAPSE

German Newspapers on Tuesday Re-
marked That Far-Reaching Events
Were Indicated in News from
Constantinople.

Amsterdam, Wednesday, Oct. 16.—German newspapers are preparing the public for an announcement of Turkey's withdrawal from the war. On Tuesday the Frankfurt Gazette printed a dispatch from Constantinople to the effect that far-reaching events were impending there.

The dispatch said that in the Vilayet of Smyrna, representatives of American and British business interests have maintained throughout the war cordial relations with the governor, Rahme Bey, "the uncrowned king of Smyrna," with whom Constantinople never has dared to interfere. The newspaper says that, despite the rupture of diplomatic relations "many bridges still led from Constantinople to Washington."

Robert college and the girls' college on the Bosphorus, as well as the American university at Beirut and other educational institutions, were permitted to continue work during the war. They were supplied with food from Bulgaria, as many students in these institutions come from Bulgarian families of the upper class. It was through these channels, according to the newspaper's correspondent, that first overtures were made to Washington looking to the withdrawal of Bulgaria from the war.

PIROT, IN SERBIA, TAKEN FROM ENEMY

City Is on the Railroad Between Nish
and Sofia and 12 Miles from Bul-
garian Frontier.

Paris, Wednesday, Oct. 16.—French forces have entered the city of Pirot, in Serbia, according to an official statement issued at the war office to-night. Pirot is on the railroad between Nish and Sofia and is 12 miles from the Bulgarian frontier. The statement follows:

"Serbian troops have carried the heights north of Nish. They have made notable progress along the left bank of the Morava river (north of Nish) and have captured four cannon. French cavalry have entered Pirot."

NEARLY MILLION BRITISH DEAD.

Since the War Started, According to In-
formation in London.

London, Wednesday, Oct. 16.—Up to the present nearly one million British lives have been sacrificed in the war, according to information received by Reuters' Limited.

GOOD FOOD —and a food that fits these saving times— Grape-Nuts

Needs no sugar

ARE YOU PALE, THIN?

You Should Use the Best, Most Eco-
nomical, Successful Treatment.

There is loss of vitality when the lips and cheeks lose their color. The blood is thin, the digestion is impaired, and the nerves are weak.

At this time there is need of Peptonin—the preparation that gives so much satisfaction in anemia, nervous weakness, nervous dyspepsia, sleeplessness. It is a real iron tonic. Begin taking it to-day.

The more vitality you have the more force you have, the more strength to do, the more power to endure, the greater capacity to enjoy and ability to get out of life the most and best there is in it.

Get Peptonin of your druggist or from C. I. Hood Co., Lowell, Mass.—Adv.

DANGER LURKS IN PEACE PROPOSALS

Premature Peace Discussions Tend to
Relax Measures Essential
to Victory.

Burlington, Oct. 17.—The recent victories of the allied armies, coupled with the rumors of an early peace, offer a real menace to the achievement of a victorious peace. The danger must be feared in that measures for food conservation may be slowed up.

It must be driven home to every Vermont farmer that if America had failed for sixty days to furnish supplies for the soldiers in Europe the war would have been a lost cause. Then let this fact sink in: If America fails to provide enormously increased food supplies this year the result will be just as disastrous.

There are now nearly 2,000,000 American soldiers in the allied armies and food is just as much a military necessity as guns and ammunition. The food raised in America this year must be stretched out and made to feed both the American people and the allied armies and nations. And there is the ever present danger that next year's crops may be short.

These facts have compelled the United States food administration to urge stricter economy of all foods, especially the staples that can be shipped abroad, such as beef, fats, flour and sugar. Ships that have been used to bring sugar to America are now needed to carry soldiers to Europe. Soldiers on the battle front are vastly more important than unlimited supplies of white sugar.

From Oct. 21 Vermonters are asked to observe more stringent regulations in the use of sugar, molasses and wheat products. These rules are absolutely necessary and are important factors in the triumph of the great cause of freedom and democracy. And a cheerful compliance will hasten the dawn of a victorious and permanent peace which already tints the war clouds that enshroud a stricken world.

Colds Cause Grip and Influenza
LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.—Adv.

HOW TO MAKE A FACE MASK.

A Necessary Precaution for Those Car-
ing for Influenza Patients.

Many people have asked the state board of health how to make a face mask.

Here are the directions:
The board of health recommends fine mesh cheese cloth, usually called butter cloth. Cut the material into strips six by eight inches. If butter cloth is used three thicknesses will be sufficient, but with coarser material from five to ten thicknesses should be used, according to the fineness of the mesh. The mask should be hemmed on the edges and made with four plastic lengthwise of the material. Tape should be fastened on each of the four corners sufficiently long to tie behind the head. When the mask is extended full width by fanlike extension of the flaps it will cover the nose and mouth and come below the chin. The upper tape extends over the ears and ties in the back of the head so that the ears will hold the mask up in place. The lower tape to be tied around the neck.

Masks are very inexpensive, material costing little more than five cents for one mask. The board recommends that attendants provide themselves with a number of these, and that a person attending a patient wear a mask not longer than two hours. The used mask may then be boiled for at least five minutes before being used again. If this is done it will not be necessary to use antiseptics on the mask. Care should be taken that the part over the face is not handled in removing, but if contact with the hands does occur, the hands should be thoroughly washed with soap and hot water. C. F. Dalton.

MEN NEEDED IN AIR SERVICE.

Men Wanted for Immediate Duty Over-
seas.

In order that the great number of men needed in the air service for immediate duty overseas and in this country may be obtained within the next few days, the army air service has opened to all men between the ages of 18 and 30, the only stipulation being that those between the ages of 21 and 31 be "limited service" stenographers.

Men are needed in every department. Some will be given immediate overseas duty and others will be sent to the immense air service training schools in this country, where they will receive special training in whatever their past experience has fitted them. There is the greatest opportunity for immediate advancement in the air service, four-fifths of the men in an air service squadron being non-commissioned officers. This is because of the fact that practically all men in a squadron are on duty which requires great skill and of great responsibility. Some of these non-commissioned officers receive as high as \$120 per month, exclusive of all living expenses. In the event that men have dependents the government will make a monthly allotment to them.

All men in the New England district must appear in person before the air service trade test board, 735 Boylston street, Boston, where they will be examined and if accepted will be designated for immediate duty with a flying force or at an air service training school.

To Designate "Victory Farms."

Iowa farms which put in their quota of the Liberty wheat crop are to be designated as "Victory farms" according to announcement by the county farm bureau of the state. Posters with the legend "Victory Farm" will be given to the farmers by the school district co-operators late this fall. Those who sow spring wheat will be given their posters next spring. The wheat quota is one acre out of every eight. Allowances will be made on farms having an unusually large amount of tillable land.

RHEUMATICS WON'T BE FOOLED

They Stick to "Neutrone Prescription 99."

You have tried a lot of things for rheumatism but still have it, it sure is discouraging.

Now try the new, sure, quick, easy, no trouble way, the new "Prescription 99" way.

Watch it get that uric acid out of your system, get rid of those sore, aching, inflamed joints and muscles and in a hurry too. "Neutrone Prescription 99" is as sure as time.

No more fiery salves and liniments that hurt you more than the rheumatism, but a good clean internal remedy that eliminates all impurities of the blood, makes you like new, makes you feel like doing things once again. You can distinctly feel your rheumatism leaving you and oh! what a relief, your rheumatism days are over. 50c and \$1 the bottle.

E. A. Brown, the druggist, and leading druggists everywhere.—Adv.

GLOOMY PREDICTION FROM GERMAN PAPER

War Is Ending as No Man in Germany
Desires, According to Berlin
Vorwaerts.

Amsterdam, Wednesday, Oct. 16.—"The war is coming to an end and in such a manner as no man in Germany desires," said the Vorwaerts of Berlin on Monday. "Let us say it candidly," the newspaper continues, "during all these terrible four years the aim of our efforts and sacrifices was to prevent such an end."

VON TIRPITZ SENDS BEST WISHES.

Man Who Killed Women and Children at
Sea Bobs Up.

Amsterdam, Wednesday, Oct. 16.—Admiral Alfred von Tirpitz, former secretary of the German navy, has sent a telegram to Prince Maximilian, the imperial chancellor, in the same of the Fatherland party, recognizing and appreciating the government's heavy responsibility and promising Prince Maximilian the party's support, according to the Tageblatt of Berlin.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right
with the system full
of poisons.

Millions of folks bathe internally now instead of leading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply cannot get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.

NEW BRATTLEBORO INDUSTRY.

Putney Concern Buys Springfield, Mass.,
Business.

Brattleboro, Oct. 17.—Announcement was made by the new industries committee of the battle of yesterday afternoon of the securing of a new industry to occupy the five-story factory on Elliot street formerly occupied by the Carpenter Organ Co. The C. E. Bradley corporation of Putney, makers of penholders and brush handles, has bought the toy business of the Haley Co. of Springfield, Mass., and will move it to Brattleboro, together with some of the machinery in the Putney plant, but will continue to operate the Putney branch. The concern will employ 100 hands within a year and several families will come here from Springfield. The corporation has increased its capital stock and a substantial amount of it has been taken by Brattleboro men.

HAIR ON FACE DISAPPEARS QUICK

The most effective, convenient and harmless way to remove hair is with DeMicare, the original sanitary liquid. It acts quickly with certainty and absolute safety. Results from its use are immediate and lasting.

Only genuine DeMicare, the original sanitary liquid, has a money-back guarantee in each package. At toilet counters in 50c, \$1 and \$2 sizes, or by mail from us in plain wrapper on receipt of price.

FREE book mailed in plain sealed envelope on request. DeMicare, 120th St. and Park Ave., New York.

VERMONT MEN IN CASUALTIES

Barre Man Died in France
of Disease—Morrisville
Man Wounded

TOTAL CASUALTIES
727—105 KILLED

More Than Half of the Total
Were Men Wounded in
Varying Degrees

Washington, D. C., Oct. 17.—To-day's casualty list contained 727 names, divided as follows: Killed in action, 105; missing in action, 17; wounded severely, 182; died of disease, 40; died of wounds, 19; wounded (degree undetermined), 247; prisoners, 12; died from accident or other cause, 3. This list includes marines. Those from New England are:

MANY AMERICANS Were Named in the Canadian Casualty List for To-day.

Ottawa, Oct. 17.—The following names of Americans are included in to-day's Canadian casualty list:
Wounded—J. McQueenie, Pittsburgh, Pa.; L. E. Ansell, Trenton, N. J.; W. Gardner, Union Hill, N. J.; R. H. Oakley, Leavenworth, Pa.; A. Hudson, Philadelphia.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-
made remedy has no equal. Easy-
to-prepare and always effective.

You'll never know how quickly a bad cough can be conquered, until you try this old home-made remedy. Any one who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare, and really there is nothing better for coughs.

Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more palatable, effective remedy. It keeps perfectly and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tickling cough, soothes the inflamed phlegm thin out and then disintegrates altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, whooping cough, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give complete satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Cuticura For The Skin

The Soap to Cleanse and Purify
The Ointment to Soothe and Heal

These fragrant, super-creamy emollients stop itching, clear the skin of pimples, blotches, redness and roughness, the scalp of itching and dandruff, and the hands of chaps and sores. In purity, delicate medication, refreshing fragrance, convenience and economy, Cuticura Soap and Ointment meet with the approval of the most discriminating. Ideal for every-day toilet use.

FREE booklet mailed by mail address post-card: "Cuticura," Dept. 44, Boston. Sold everywhere and by mail. Cuticura Soap and Ointment.

Cured His RUPTURE

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no last time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me. Eugene M. Patten, carpenter, 407E Marlborough street, Manchester, N. H. Better cut out this notice and show it to any other who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation.—Adv.

phia; F. Hughes, Greenville, Pa.; J. P. Cabot, Boston; W. Cook, Philadelphia; E. Potts, Irvons, Pa.; S. R. Yeo, Philadelphia; J. Bowen, Allston, Mass.; A. W. Fiddes, Westbury, N. J.; A. M. McDade, Allentown, Pa.; F. J. Collins, Medford, Mass.; D. S. Landry, Boston.

SAVES MONEY FOR SOLDIERS.

Domion Government to Retain All But
\$5 of Disabled Men's Pay.

Canada has fixed, by an order in council, the rates of pay and allowances for discharged soldiers and sailors, undergoing treatment in sanatoria and hospitals. With a few variations, the pay will be the same as that which the men received in active service. Dependents will receive the militia or naval separation allowance.

Men who, after their return to civilian life, ultimately break down as a result of their war-time experience, will be eligible to further treatment. Nearly 5,000 soldiers and sailors are under the care of the department for soldiers' civil re-establishment, the work of which partakes in some degrees of that done by the United States war and labor departments and the federal vocational board.

Allowances will be paid to dependents as follows: Wife only, \$10 a month; wife and one child, \$18; wife and two children, \$26; wife and three children, \$31. For each additional child \$5 is paid, but \$45 is the maximum. Men with dependents are also expected to assign to them at least \$20 from their pay.

While disabled men are being trained for civilian employment they will be allowed only \$8 a month for spending money. The rest of the money due them will be deposited to their credit in banks, to be retained until training is completed.

HEALTH TALK

The stomach and bowels are one continuous piece of human machinery—the largest in the body—and do the most work.

And if you keep your stomach and bowels in fit condition the chances are that nature will rid you of most forms of sickness.

Take advice—look well after the stomach and bowels!

You must have regular movements and be sure to keep out worms like stomach worms and pin worms.

Dr. True's Elixir is known as "The Family Laxative and Worm Expeller." It tones up the stomach, restores normal bowel action, and throws out these parasites or worms.

Remember the name, Dr. True's Elixir. Ask grandmas—who know about Dr. True's Elixir. Adults and children should use it. Start using Dr. True's Elixir to-day.—Adv.

STATE HEALTH BOARD ISSUES INSTRUCTIONS

On Precautionary Measures to Be Fol-
lowed in Influenza Outbreak—Those
Attending Patients Should
Wear Masks.

All attendants on patients suffering from influenza should wear a mask. This warning is sent out by the Vermont state board of health.

The masks may be made very simply as follows: Three layers of butter cloth or five to seven layers of fine mesh cheese cloth so fastened that it will cover the nose and mouth. They should never be handled, while being worn. After using a mask at one place it should be placed in a paper bag and should not be used again until it has been boiled at least five minutes. Local chapter of the Red Cross will supply these masks, or they can be easily made at home.

Attendants should also wear an apron or gown over the ordinary clothes and not remove this from the sick room except wrapped in a paper and not use it for other purposes until it has been boiled at least five minutes. The paper wrapper for both masks and apron should not be carelessly left, but immediately burned after use. These precautions are especially important to those who must necessarily attend to household duties.

If there is a patient in your home, boil every article coming from the sick room. Keep all but authorized attendants out of the sick room. If one must come in contact with the patient, wash your hands thoroughly with soap and water afterwards.

The board gives a few simple precautions that must be constantly observed: First is cleanliness. Shun all public towels, public drinking cups, keep out of dirty restaurants and taboo dirty food stores. Keep away from soda fountains unless they provide sanitary paper cups and wooden or other spouts that are used only once. Boil all dishes. Wash the hands before handling food and before all meals.

Cover every cough and sneeze with a handkerchief or cloth and either boil or burn the same after use.

Keep away from crowds. Do your visiting in the open air.

Keep out of doors as much as possible. Dress warmly.

Keep your windows open at night; add bed clothes but do not subtract fresh air.

Get plenty of sleep. Don't worry. If you feel sick go to bed at once and send for a physician. If the physician cannot come at once take a laxative. Drink plenty of water and eat light simple food as milk, eggs, and toast.

Don't try to get up until the physician gives you permission.

Charles F. Dalton.

Supreme Court Not to Be Open for Business Until November Term.

Acting upon the advice of the state board of health, the supreme court will not be open for the transaction of business until the opening of the term fixed by law to be held on the first Tuesday of November.

Dated at Montpelier this 16th day of October, 1918.

John H. Watson, Chief Justice, For the Court.

Lewis C. Moody, Clerk.

ROMANIANS ARE IN REVOLT

Outbreaks Against Germans
Taking Place in
Moldavia

PEOPLE BECAME
SUDDENLY HOSTILE

According to the Advices to
Paris from Bucharest
Sources

Paris, Oct. 17.—Outbreaks against the Germans have occurred in northern Rumania in the province of Moldavia, says a dispatch to the Journal from Zurich. The population suddenly assumed an openly hostile attitude to the German authorities, according to the advices, which come by way of Bucharest.

In several districts there have been clashes between bands of Rumanian peasants and Austro-German forces.
